

**REMARKS**

In the specification, the paragraph beginning at page 1, line 4, has been amended to update data in connection with the cross references to related applications and to correct minor editorial problems.

Please note that the statement in reference to parent application USSN 09/588,800, filed June 6, 2000, being abandoned in the amended paragraph is not true as of the filing date of this application, as a petition for a three-month extension of time is filed herewith to maintain its pendency through September 12, 2003. Applicants merely include this statement regarding the abandonment of the parent at this time because it will be true beginning September 13, 2003, and to avoid the need of a further amendment to the specification at a later date.

The Commissioner is hereby authorized to charge any additional fees associated with this paper or during the pendency of this application, or credit any overpayment, to Deposit Account No. 10-0750.

Please direct any questions to the undersigned attorney at (650) 564-5171.

Respectfully submitted,

Dated: September 12, 2003
